Summary

Junior developer with a passion to learn!

Since being introduced to programming late 2013, I've always been curious about software development but after reading my first how-to JavaScript book, I was officially hooked. I've learned current languages and frameworks and aspire to put my skills to use.

Relevant Experience

Information Technology Intern @ Union High School

Aug 2016 – May 2018 | Tulsa, Ok

- Installed software, implemented diagnosis on systems and acquired hands on learning on hardware repair for laptops, computers, smart boards, printers and projectors.
- Supported the IT manager with department administrative duties.
- As team captain, I kept colleagues on task with proactive control over projects and assignments.
- Assisted with virtual and physical troubleshoot on desktops for department staff in Union's district.

Projects

API Employee Directory

A mock-up directory that displays random users and their appropriate information fetched from an Application Programming Interface(API).
